

# Preparing to apply for Supplemental Nutrition Assistance Program

## Helpful Information

**Start your application as soon as possible.**

- Don't feel like you need to gather everything listed before starting.
- Benefits are calculated from the date of submission, so it's better to guess or leave some parts blank rather than wait to verify information.

**Here's a list of additional items that can help you complete a SNAP application:**

**Basic info** for all household members like Name, SSN\*, DOB, citizenship status, and relation to applicant.

**A rough guess of your household income** with sources like paycheck estimates, child support, alimony, social security payments, etc.

### Did you know?

\*Undocumented applicants can still apply for SNAP benefits on behalf of their documented or US born children. Let your SNAP application assistant know that you need to request an OKDHS client ID.

### Estimated housing expenses

(rent/mortgage, utilities)  
Child care and child support expenses.

**Monthly medical expenses** for any household member who is age 60 or over and/or has a disability.

After submitting, OHS will contact you to clarify information or request supporting documents.
